

Millwork Division

Profile Catalog

Table of Contents

| | |
|--|--------------|
| Introduction..... | 1 |
| Base | 2-16 |
| Casing | 17-39 |
| Chair Rail | 40-46 |
| Crown | 47-77 |
| Panel..... | 78-86 |
| Siding and Tongue & Groove..... | 87-91 |
| Half Round..... | 92 |
| Window Stool..... | 93 |

The Moulding profiles presented in this catalog represent only a portion of the styles and sizes that are actually available. While these profiles generally have been manufactured before, they are by no means the only ones that can be produced. Our Millwork Division can either duplicate a profile from an existing sample or create a new design based on specific drawings.

This profile catalog is a library of custom moulding, siding and tongue and groove profiles that has been developed over the years and can be run using many different species of wood from softwoods to hardwoods. These various wood species can also be milled to standard square-edged board thicknesses and widths. Some of the more common woods used for mouldings are oak, poplar, maple, and cherry, with cypress for tongue and groove applications. While these woods are considered “stock” items, there are many more hardwoods available in both domestic and exotic species by special order, from walnut, elm and hickory to mahogany and teak.

Our goal is to provide quality, custom-milled products from select wood species at the most affordable price possible.

**For pricing and availability of all millwork profiles and products,
contact your nearest East Coast Lumber location:**
